SHADFORTH

PRESCRIPTION SERVICE LTD.

Mail Order Chemists

NO single medicine can relieve or cure ALL the troublesome ailments to which the human race is heir. Although there are some who would have us believe otherwise, there is no such thing as a panacea; and a remedy which may work wonders for one type of complaint is very likely to prove absolutely ineffective when used for another. It is, of course, true that a remedy may be so constituted as to give a certain amount of relief for the maximum number of maladies, but in such a case its potency with regard to any particular complaint is obviously impaired. Shadforth Prescriptions are neither claimed nor intended to be "cure-alls." There is a Shadforth Prescription for most minor ailments—each one carefully designed to meet the special needs of the trouble, and proved by research and long and constant usage to be the best possible home treatment. The reason these famous prescriptions have achieved such outstanding success is that they *positively give relief.*

The Happy Family

If there is purpose behind our earthly lives, as most of us admit, it must be linked up in some way or other with FAMILY LIFE. "*It is not good for man to live alone.*" Human life, as we know it would cease without the family.

Modern developments, in transit by land, sea and air lead us a step further and we can surely interpret them as saying to us "*It is not good for nations to live alone.*" We are moving towards the family of nations.

In any case, however, for each and all, young or old, whatever our politics or sect, language, custom or colour of skin, wealth or intelligence, we cannot enjoy our inheritance, or perform our work in the world to the full without *Health—a sound mind in a sound body.*

"Mate" is a stimulant tonic, which properly renders it an excellent drink for the sick and for convalescents.
